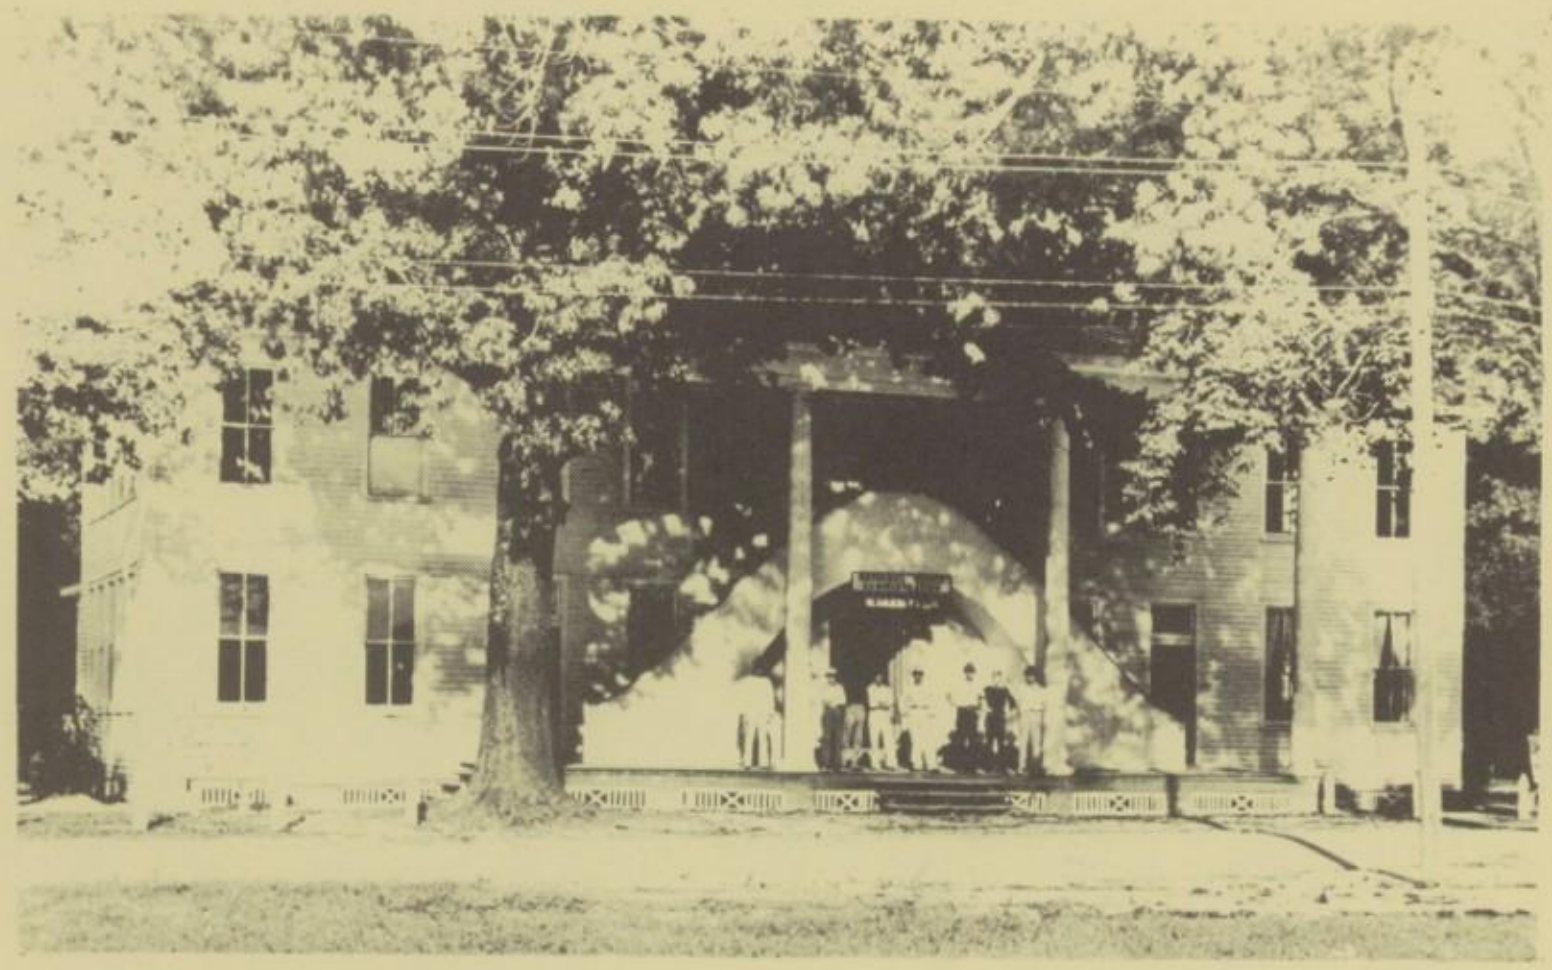
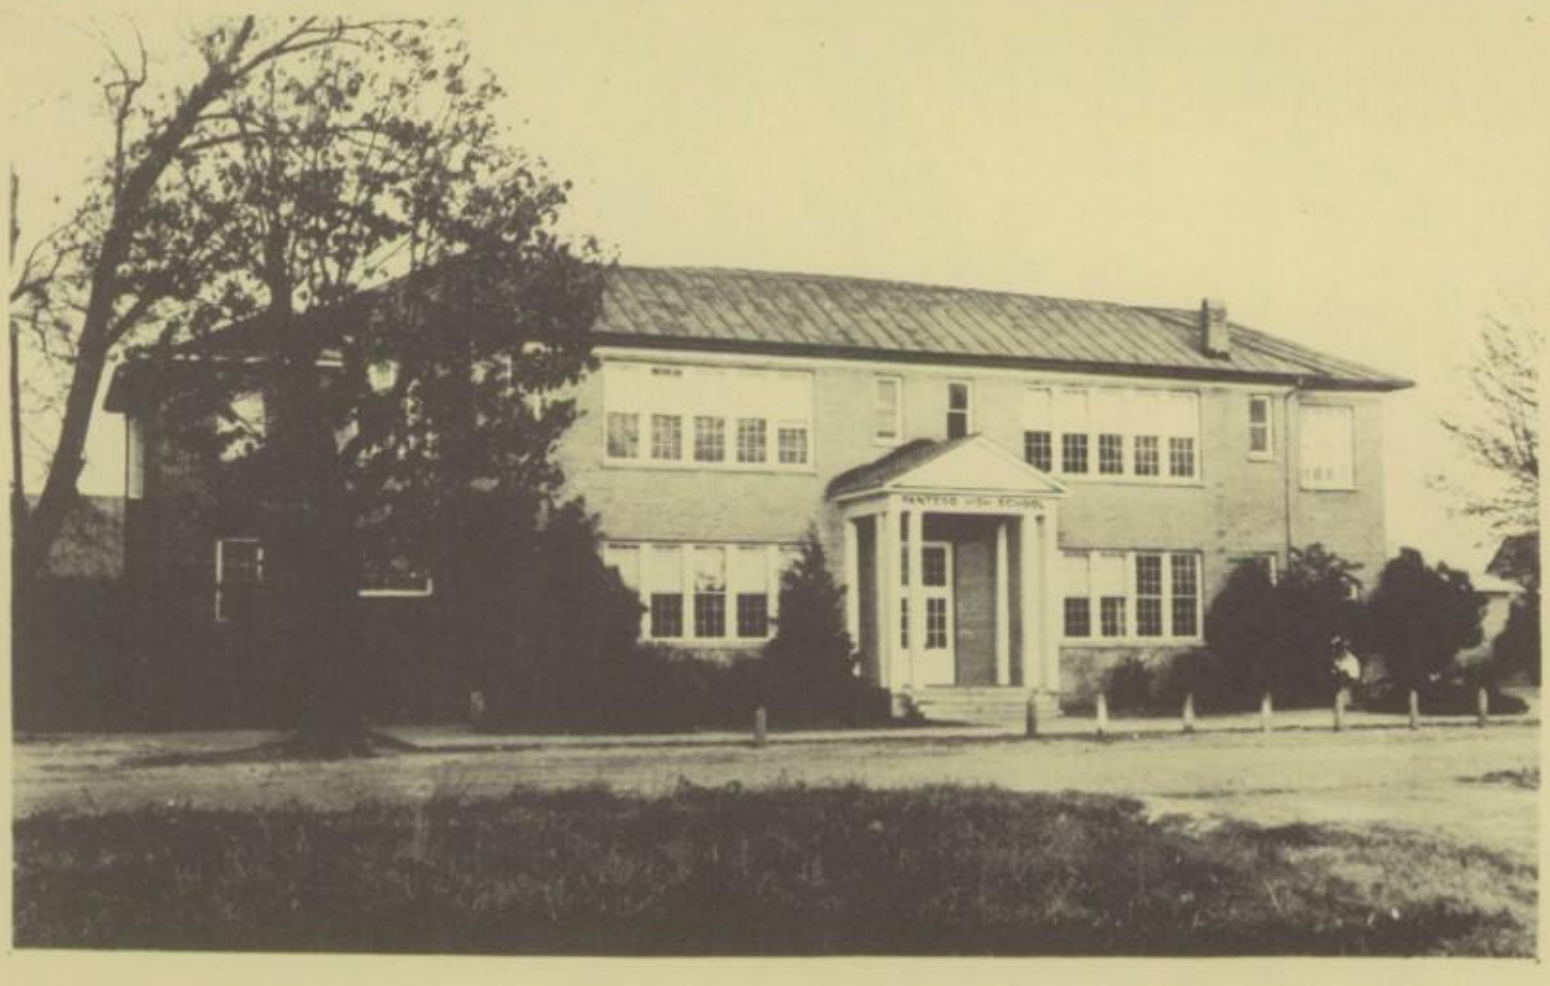
Ye Olde Academie



BEFORE 1923



Pantego N. C.

Dedication

The 1974 Seniors dedicate this yearbook to the grand old building we know as the "Olde Academie." This building was built in 1877. Twenty-seven students were enrolled the first year of operation. The school progressed slowly and in 1885 had one of its largest financial years. It actually profited $1.35. Parts of the building were rented or leased several times to pay debts. In 1907, the high school took root and began to flourish. The same year it became part of the County Education System as a Rural High School. In 1910, agriculture was introduced to the high school and the students tended a garden of flowers and vegetables. Through these years, the school was remodeled several times.

When a new brick building was built, the "Olde Academie" was still used for several years. Doom seemed to have arrived in 1965 when the building was condemned, but through the efforts of the Pantego Alumni Society it was saved.

Our education system is now housed in other buildings, but because of Pantego's love for this building, it still stands as a shrine to our long-standing high regard for education.

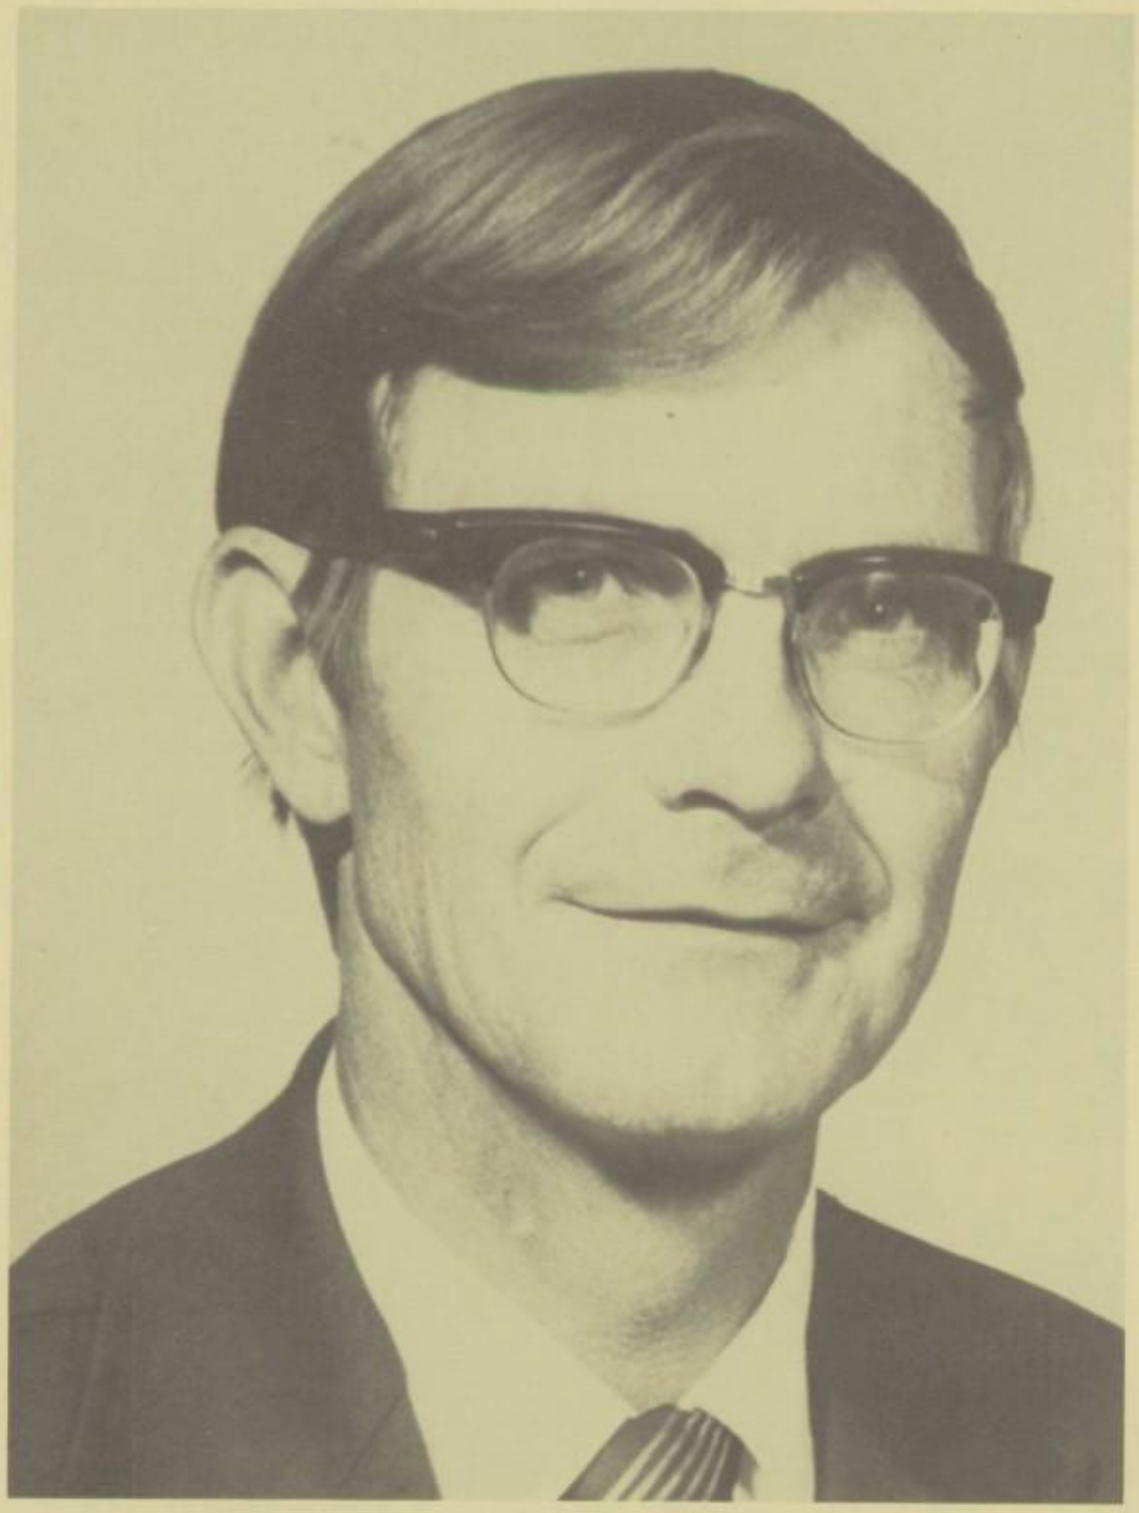
MRS. LENA WALLACE

A familiar figure at Pantego High School, that everyone knows, is Mrs. Lena Wallace. Through her hard work, Pantego High stays clean and shining. She is often seen walking through the halls with her broom and "CLOSED FOR CLEANING" sign. She has worn out hundreds of brooms and mops. She does a job that many women could not do and tackles it with determination.

After almost 20 years of work she has a smile on her face in the morning and the smile is still there when the students leave for home.

. . . Pay Tribute



MR. DENNIS DAVIS

A person that everyone loves is Mr. Dennis Davis. He is a man of many abilities. He has been the minister at Union Grove Church of Christ for 19 years.

At school he is involved in many activities. Often he is found behind a teacher's desk doing his best as a substitute. He works hard as assistant football coach and umpires baseball games. Mr. Dennis, as he is known by the students, has won Pantego's heart with his pleasant personality and his broad grin.

We Honor The Past

Twenty-seven years ago, Mrs. Elizabeth Hackett and the first annual staff were in the process of publishing Pantego High School's first annual. This year's annual staff would like to pay tribute to that important step. They began a tradition that has carried through these years and will continue for many more. The 1974 yearbook is quite different from the first. Progress has been made, from paperback to hard back, from black and white photographs to color.

Yet, it was the first staff who gave us the lasting example of a yearbook to cherish through the ages. To these people we give our sincerest appreciation.

Mrs. Evelyn Waters Dunbar, Mr. B. G. Carowan, and the first advisor, Mrs. Elizabeth Hackett, reminisce over the original yearbook.

Changes In Agriculture Since 1944

Farm Machinery has made remarkable improvements in agricultural production.

Potatoes were once the main money making crop in Pantego.

The potatoe combine made the harvesting of potatoes easier since requiring less hand labor.

The final results are still the same.

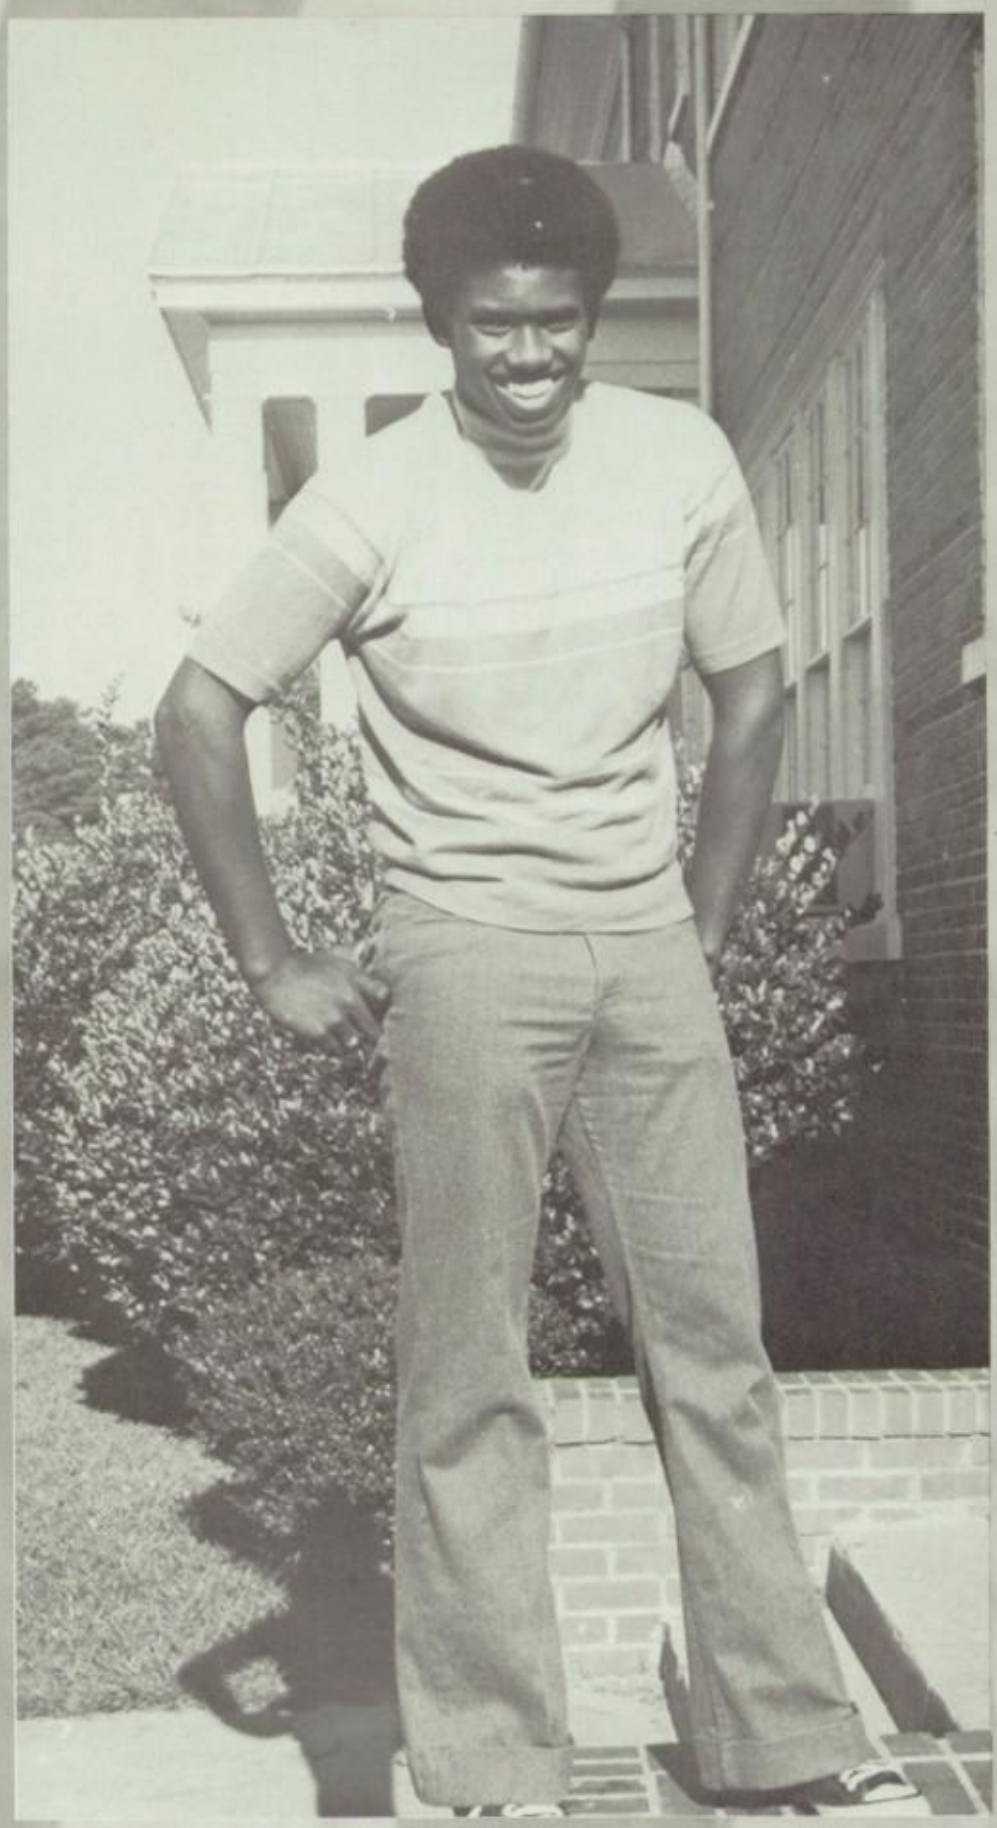
The Bellamy Award

The National Bellamy Award was established in 1942 under the direction of Dr. Margarette S. Miller.

In 1956, Pantego High School was honored by receiving the National Bellamy Award for its all-around excellence in many different fields. This award is given to the school which represents all the outstanding schools in the state. Each year a different state is selected to host the Bellamy Award and many schools in that state are invited to try to qualify.

After receiving the award, each school is given the opportunity to send a senior representative to the new state in which the presentation is to be held.

This year Jasper Peele was chosen by the faculty of Pantego High School to represent our school at Springfield High School in Springfield, Vermont.



Two Inside Glimpses

Frank Ambrose

The many qualities of Frank Ambrose, including his ability to cope with the problems of the students and the teaching of math, are most outstanding. His never-ending patience makes him well liked by the students. He is very influential in school and since he serves as the assistant principal, he is always busy.

He not only is active in school but also in the community. He was nominated for Outstanding Citizen of the Year and is an Alderman.

Dawning Is The Day

"Flow to the sea,
You know where to go,
Still we are free,
No one tells the wind which way to blow."

— A Question of Balance

Tom Sawyer

Tom Sawyer, Spanish teacher at Pantego High, is President and founder of the Al-Pam Ski Club of Bath, N. C. He started flying the flat kite in 1969 and the Delta in May, 1972.

In 1973, he placed first in Delta Slalom, Overall Delta, won the North East Regional Championship, and placed third in the Flat Kite Slalom at the Can-Am International Kite Flying Championships at Taupper Lake, N. Y. Also in the U.S. National, he placed first and third.

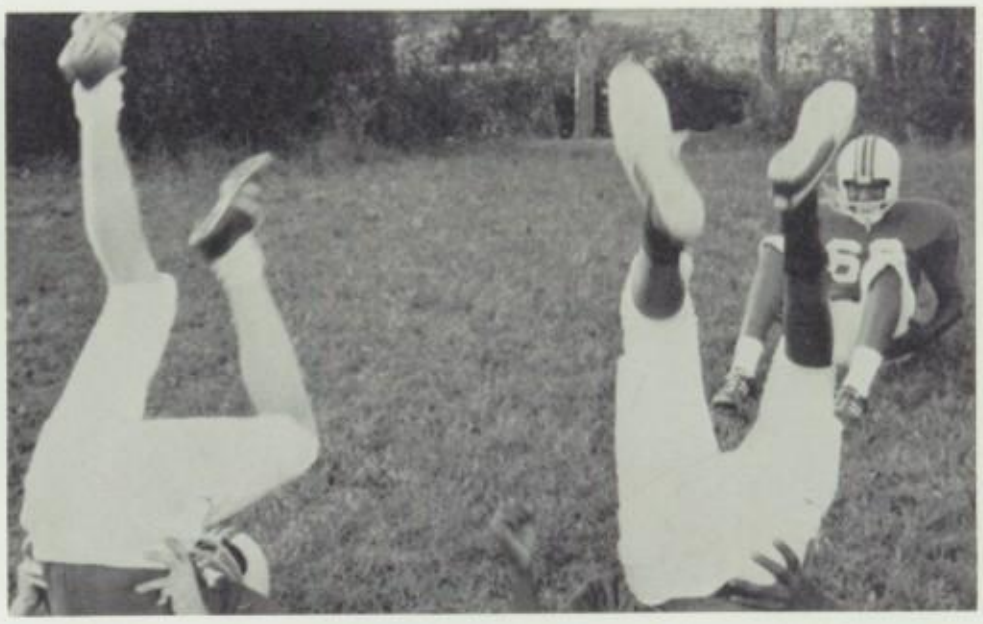
Coach Houston and Assistant coach Davis watch curiously.

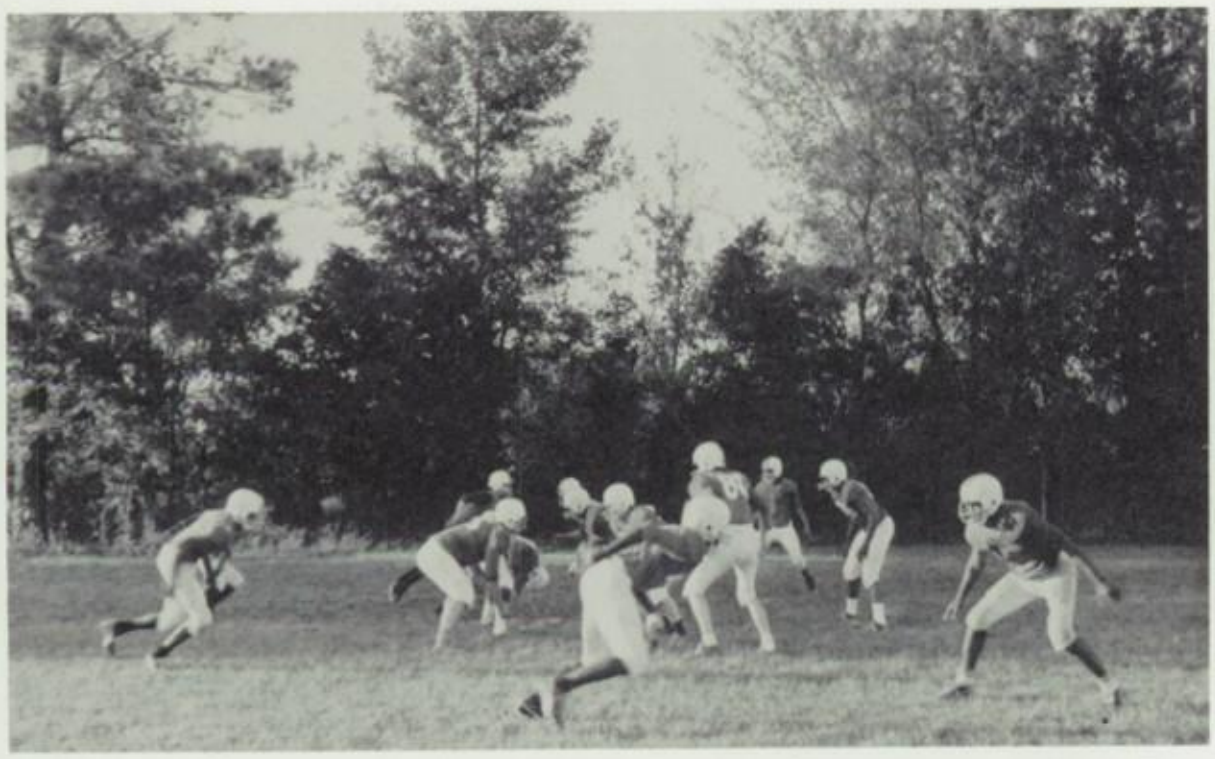
Our Quarterback and Center practice hard to make a successful season.

Practice Makes Perfect

Coach Houston gives players important information that will help them to perform better.



Exercise is very important but Jasper thinks it's funny.



You have to practice a play many times before you can get it right.

Warriorettes Win

The Warriorettes took a seven-point lead by halftime, holding the Bath attack to just two points in the second frame. But the Pirate girls fought back in an 11-4 third period to draw within a single point of Pantego.

The Warriorettes held off the charge long enough to register the win.

Scoring for Pantego was led by Ginger Hollowell's 11 points, Belinda O'Neal added 6 points, four each from Sandra Whitney and Valerie Daniels, and Hele Johnson scored only two poi

This goes to show you that there are still a few hard working students at Pantego High. Ha! Ha! Even Mrs. Herring has time to goof off and stand around talking.

Gina Hopkins and Vickie Tetterton appear to be telling one of those horse's tales during their fifth period English class.

Freshmen must really enjoy cooking in their F.H.A. class, especially when Mrs. Carrow has enough will power to eat the food herself.

ACID PLANTS EXPANSIONS AT LEE CREEK

Agriculturalists estimate that without the use of chemical fertilizers, 50 million Americans would starve.

Recognizing the potential shortage of fertilizer materials, Texasgulf began several years ago to expand its Lee Creek facilities. The $23 million expansion of the acid plants announced in April, 1972 was completed on schedule for the 1974 fertilizer season. The $46 million expansion program announced in September, 1973 is well underway.

These expansions will strengthen the economy of the area as well as increase the supply of fertilizer materials needed to produce food.

JUST AS WE KEEP EXPANDING AND MOVING AHEAD, TEXASGULF IS HAPPY TO SEE YOU REACH AN IMPORTANT MILESTONE IN YOUR CAREER. OUR SINCERE CONGRATULATIONS AND BEST WISHES TO THE CLASS OF 1974.
